

AgencyConnect

Simplified, centralized,
built to scale.

Expectations of federal agencies are sky high. The dreaded “swivel chair” approach is no longer acceptable. Agencies have made progress modernizing individual systems, but to modernize effectively, they must embrace a streamlined and standardized digital experience.

AI-Enabled Efficiency for Employees, Constituents, and Agencies

AgencyConnect serves as the connective tissue for the enterprise, delivering consistent, intuitive workflows across all systems of record. By shifting from siloed department solutions to an enterprise-wide engagement model, AgencyConnect streamlines interactions across IT, Finance, and HR – preserving operational and ERP systems through a unified workspace. Its scalable architecture enables agencies to create truly integrated enterprise experiences – standardizing services, consolidating application access, and providing comprehensive knowledge bases across any system.

Cohesive Experience

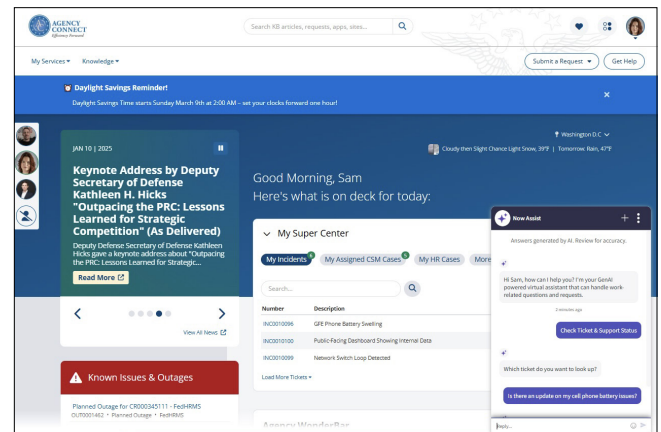

Your digital front door to interact with the enterprise.

Interconnected

AI-driven automation is built on centralized data, modern interfaces, and agentic workflows.

Built to Scale

Scalable digital infrastructure required to support Shared Service and Global Business Services (GBS) models.

Accelerated Delivery of Agency Connect + Agentic AI

AgencyConnect Accelerated

Pre-built 508-compliant user experience components and tailored agency-specific branding.

GenAI Value Assessment

A 4-week assessment of your ServiceNow instance to confirm GenAI readiness and align on an implementation strategy.

Accenture Skills Framework

250+ skills and prompts to amplify the impact of NowAssist.

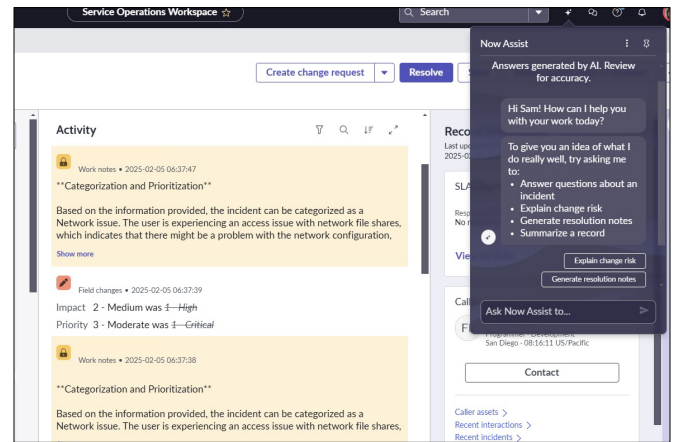

AI-Driven Federal Enterprise Services

Customer Service Excellence

- **Proactive Engagement:** GenAI detects delays and initiates support based on sentiment analysis.
- **Conversational Service Catalog:** Natural language processing simplifies service requests.

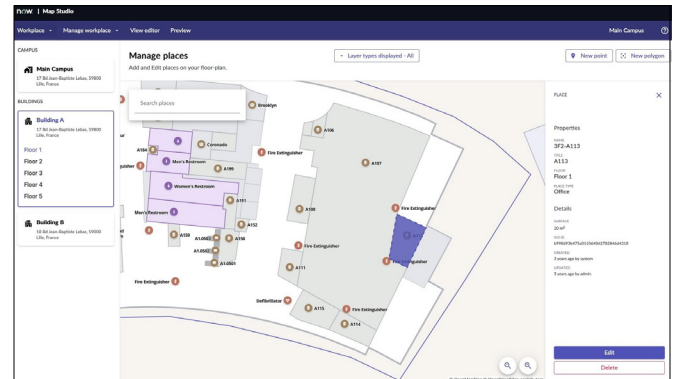

Intelligent IT Service Management

- **Smart Incident Resolution:** AI-powered ticket summarization and knowledge creation, reducing mean time to resolve (MTTR) and average handle time (AHT).
- **Automated Change Analysis:** AI identifies and converts normal changes to standard templates reducing need for manual intervention.
- **Proactive Problem Management:** Proactively identifies issues and creates trend and root cause analyses.

Smart Workplace Experiences

- **Intelligent Space Management:** Optimized hoteling and conference room bookings based on team and size requirements.
