

Modernizing Federal Enterprise Resource Planning Systems

Enterprise Resource Planning (ERP) systems serve as the backbone of large organizations; they seamlessly connect diverse applications across business functions such as finance, human resources, and supply chain. However, challenges with legacy system integrations often arise at the organizational level, including customization costs, outdated user interfaces, high upgrade expenses, and inflexibility in adapting to change.

In today's federal landscape, ERP modernization is imperative to meet evolving mission and organizational needs. Accenture's Technology Architects can address these challenges and enhance the user experience by integrating ServiceNow with existing ERPs. This approach, which we call **ERP+**, capitalizes on ERP investments with minimal disruption and offers budget-effective modernization opportunities.

ERP+ Facilitates Transformation

Intuitive and Unified User Experience

Achieve a unified experience by orchestrating processes between departments, allowing rapid delivery of new services and a cohesive experience across applications.

Adaptive Automated Process Flows

Optimize productivity with adaptive automated process flows, intelligently enhanced through AI and Process Mining for insightful analyses and time savings.

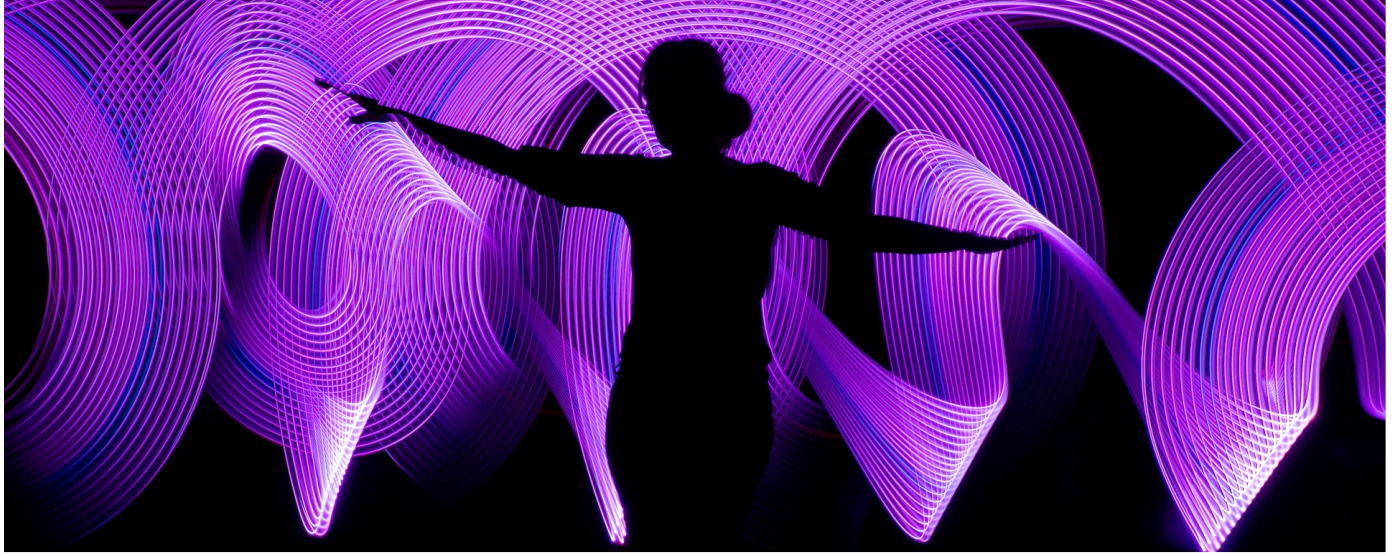

Democratized and Secured Data

Enhance data integrity through ServiceNow's advanced security model, safeguarding the accessibility and confidentiality of information.

Low-code Flexibility

Fuel innovation and overcome native ERP limitations with low-code solutions which accelerate application delivery through drag-and-drop ease, seamless upgrades, and an enhanced user interface.

Why Accenture?

Federal Expertise

Leverage Accenture's rich experience in transforming federal agencies, demonstrated through a track record of 45+ successful ERP implementations.

Skilled Resources

Empower ERP+ implementations with our dedicated Platforms Capability, featuring Technology Architects, subject matter experts, and practitioners across diverse business functions, ready to deliver tailored advice and craft impactful solutions.

Innovation Assets

Drive efficiency through our Platform Elevation Lab, offering resources, accelerators, and pre-built solutions to facilitate a seamless ERP+ implementation.

Strategic Alliances

Unlock the benefits of Accenture's top-tier partnerships with ServiceNow, SAP, Oracle, and Workday, ensuring an unmatched level of service and support for our clients.

ERP+ on the Horizon

Government employees and their customers deserve optimized service experiences, streamlined digital tools, automated processes, and interconnected systems enhancing access to information.

ERP+ offers a cost-effective solution for organizations seeking modernization without a significant price tag or business disruption.
